PROFESSIONAL SUMMARY

Project Manager with 15+ years of experience in planning, executing, and delivering large-scale projects involving digital platforms, web-based systems, and simulation-based solutions. Proven track record in managing multi-institution and multi-stakeholder projects, leading cross-functional teams, and delivering large-scale implementations across national and international environments. Strong background in software-driven projects and digital platforms, with a consistent focus on scalability, efficiency, and stakeholder impact.

WORK EXPERIENCE

PROJECT MANAGER | 2013 – Present

AMRITA VIRTUAL LABS, AMRITA VISHWA VIDYAPEETHAM,
INDIA

- Led national deployment of virtual laboratory platforms across **17+** Indian states, improving access to digital lab infrastructure for thousands of students.
- Managed the end-to-end lifecycle of 30+ simulation-based platforms, including planning, execution, quality assurance, deployment, and post-implementation support.
- Led cross-functional teams comprising developers, subject experts, instructional designers, and technical support staff to ensure timely project delivery.
- Coordinated multi-institution and government-supported implementations, ensuring scalable adoption and long-term sustainability.
- Managed stakeholder engagement across universities, faculty teams, institutional partners, and government bodies to maintain alignment and smooth execution.
- Delivered large-scale training programs for **10,000+** educators and students through **150+** workshops conducted across India and internationally (Malaysia, Maldives, Kenya, and Bangladesh).
- Developed operational roadmaps and streamlined GitHub-based deployment workflows, reducing onboarding time and improving project efficiency.

LABORATORY INSTRUCTOR | 2012 - 2014

AMRITA VISHWA VIDYAPEETHAM, INDIA

- Managed undergraduate and postgraduate laboratory operations, ensuring compliance with academic standards, safety procedures, and quality guidelines.
- Supported students in experimental execution, data analysis, and interpretation of scientific results.
- Contributed to curriculum improvement by refining laboratory manuals and supporting the integration of technology-enabled learning tools.

SKILLS

Project Management Skills

Project planning

Stakeholder management

Risk management

Budget & resource planning

Team leadership

Project delivery

Technical Skills

Programming & Web Technologies: Python, C, C++, Java, JavaScript, HTML, CSS, PHP

Data Analysis & Scientific Tools: Python, R, MATLAB, IBM SPSS, Excel

Version Control & Development Tools: GitHub, Simulation platform deployment, Software testing & QA

Productivity & Professional Tools: Microsoft Office Suite, Adobe Creative Suite

PROJECT ASSISTANT | 2011 - 2013

AMRITA VISHWA VIDYAPEETHAM, INDIA

- Developed digital content and instructional materials for online physical science experiments.

INTERNSHIP | 01/2011 - 05/2011

AMRITA VISHWA VIDYAPEETHAM, AMRITAPURI, INDIA

- Contributed to the early-stage development of the Virtual Labs platform by supporting the creation and testing of web-based simulation modules.
- Assisted in developing an interactive simulator for the Zener Diode as a Voltage Regulator experiment, improving accessibility to remote laboratory learning.

EDUCATION

MASTER OF COMPUTER APPLICATIONS (MCA) - 2017

Indira Gandhi National Open University, New Delhi, India

MASTER OF SCIENCE in PHYSICS - 2011

St Albert's College, Ernakulam, Mahatma Gandhi University

BACHELOR OF SCIENCE in PHYSICSS - 2009

St Albert's College, Ernakulam, Mahatma Gandhi University

OTHER EXPERIENCES

- Developed and managed web platforms for major academic and research initiatives, including Ph.D. admissions and technology-enabling center programs.
- Supported the development, testing, and enhancement of simulation-based digital learning systems, improving platform functionality and user experience.
- Managed migration and maintenance of simulation platforms and associated content using GitHub-based version control and collaborative workflows.
- Contributed to the modernization of legacy server infrastructure by supporting migration to a secure and updated technology stack, improving system performance and reliability.
- Performed data analysis using Python, including regression analysis, structural equation modeling (SEM), and text classification for research and evaluation purposes.
- Developed automation workflows using Python and Selenium to improve communication processes and operational efficiency.

VIRTUAL LAB OUTREACH & IMPLEMENTATION PROGRAMS

- Led large-scale virtual laboratory outreach and implementation initiatives across **17+ Indian states** to support the adoption of virtual laboratory platforms across **250+ academic institutions** in India.
- Planned and delivered **150+ training and implementation workshops**, reaching **10,000+ educators and students** across India and internationally, including Malaysia, Maldives, Kenya, and Bangladesh, to drive large-scale platform adoption and stakeholder engagement.

ACHIEVEMENTS

- Chancellor’s Publication Excellence Award, Amrita Vishwa Vidyapeetham – 2023 and 2024.
- Best Paper Award, IEEE ICALT 2018 (International Conference on Advanced Learning Technologies) for research in educational technology.
- Led and delivered international virtual lab implementation and training programs, including a major workshop conducted in Kenya (Africa), 2022.

CONFERENCE PARTICIPATION

- IEEE ICALT, IIT Bombay – 2018
- IEEE International Conference on Technology for Education – 2014
- ICTEE International Conference – 2012
- Selected national workshops and research seminars in physics and educational technology
